

Appoint New Manager at Kankakee Unit

The appointment of J. Scott Brown to the position of manager of the Kankakee Unit of Joliet Arsenal was announced Thursday by J.C.H. Wendes, production manager of the Naugatuck Chemical division of the United States Rubber Co. Brown replaces H. R. Gaetz, who has been relieved for other duties.

THE KANKAKEE Unit of Joliet Arsenal is one of the nation's major producers of TNT. It is oper-

ated by the United States Rubber Co. under a contract with the United States government. Approximately 4,400 persons living in the Joliet area are employed at the Unit.

Prior to assuming the duties of manager at the Kankakee Unit, Brown was chief engineer of the Company's Naugatuck Chemical division at Naugatuck, Conn.

He joined the employ of the company early in 1942 as chief engineer of the Pennsylvania Ordnance works which was operated by the United States Rubber Co. at that time.
